

Scratch: <https://scratch.mit.edu/> (free)

Scratch is a visual programming language. It can be used to create games and provide a stepping stone to the more advanced world of computer programming.

Lightbot: [tinyurl.com/light-robot-game](http://tinyurl.com/light-robot-game) (free)

Solve Puzzles using Programming Logic.

Lightbot is an educational video game for learning software programming concepts.

The goal of Lightbot is to command a little robot to navigate a maze and turn on lights.

It is available as an online Flash game, application for Android and iOS mobile phones (apps cost \$)
